

A Total Ergonomics Solution for the Office

Using the Four Points of Contact

Let's break it down. Managing office ergonomics in today's modern and dynamic work environments can seem complex. But it doesn't have to be.

Developed by practical Humantech thinkers, Ergopoint™ Office Suite provides everything you need to educate and empower your people to make instant improvements and achieve a healthy and productive workplace, all while allowing you to manage the process.

Scalable.	Comprehensive.	Simple.
From one to 10 to 10,000 employees and beyond!	Educate, assess, and manage data – one online tool does it all.	It only takes 30 minutes for your employees to complete.

Ergopoint Office Suite Features Three Online Solutions In One:

Online Training	Needs Assessment	Ergopoint Manager™
Highly Interactive	Addresses Traditional or Home Office Settings, or Both!	Helps You Prioritize the Need for Individual Assessments Follow-Up
Completed in 20 Minutes or Less	Completed in 10 Minutes or Less	Shows Trends in Equipment Needs to Help with Purchase Planning
Includes Knowledge Checks for Learning Verification	Offers Instant Feedback and Suggestions	Stores and Shares Secondary Assessment Results and Notes
SCORM Compliant	Provides No-Cost Improvement Recommendations	Allows You to Tailor or Remove Specific Questions
Can be Tied to a Learning Management System (LMS)	Helps Your People Take Immediate Action for Improvement	Allows You Direct Access to Equipment Solutions (Can be Tailored to Include Your Company's Vendors)
